

Desert Cool Trading

For Air Conditioners, Refrigeration & parts

مؤسسة الصحراء الباردة للتجارة

لخدمات التكييف والتبريد وقطع غيار التكييف والتبريد

ABOUT US

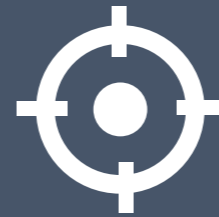

Welcome to Desert Cool Trading, your trusted partner in HVAC and refrigeration solutions. Proudly serving Saudi Arabia with innovation and excellence, we are an authorized distributor of Carrier Air Conditioning and the distributor of Daikin Refrigeration Systems.

WHO WE ARE

Based in Al Khobar, Saudi Arabia, Desert Cool Trading specializes in providing residential, commercial, and industrial HVAC solutions. We supply a comprehensive range of Carrier products, including:

- Chillers
- Package units
- VRF systems
- Central duct systems
- Mini-split air conditioners

With a strong reputation for quality and reliability, we ensure that our customers receive the best HVAC solutions tailored to their needs.

OUR STRENGTHS

- Exclusive distributor partnerships with industry leaders
- Large-scale warehouse and showroom facilities for fast delivery
- Expert technical support for installation and maintenance
- Commitment to sustainability with energy-efficient products

At Desert Cool Trading, we are dedicated to delivering innovation, reliability, and excellence in every project. Whether you need HVAC solutions, refrigeration systems, or spare parts, we have the right products and expertise to meet your needs.

OUR TRADING LINES

We are a leading supplier of HVAC and refrigeration products across multiple sectors. Our diverse trading lines include:

1. Air Conditioning & Ventilation Systems

- Residential, commercial, and industrial HVAC units
- Ducted and ductless systems
- Ventilation solutions for improved air quality

2. Refrigeration & Cold Chain Solutions

- Refrigerated cold rooms and storage systems
- Echokaline Green Condensing Units for energy efficiency
- Commercial and industrial refrigeration systems

3. Spare Parts & Accessories

- Compressors, condensers, and evaporators
- Refrigerant gases and controls
- Filters, motors, and electronic components

4. Insulation & Piping Solutions

- Copper pipes, fittings, and insulation materials
- Ducting materials for efficient airflow management

5. Smart & Energy-Efficient Solutions

- IoT-based HVAC monitoring systems
- Energy-efficient air conditioning units
- Green and sustainable cooling solutions

Nature of Business

Desert Cool Trading is a leading HVAC and refrigeration solutions provider in Saudi Arabia, specializing in the distribution, supply, installation, and maintenance of advanced cooling systems. As an authorized distributor of Carrier Air Conditioning and the distributor of Daikin Refrigeration Systems, we cater to residential, commercial, and industrial sectors. Our expertise includes HVAC systems, cold room installations, energy-efficient refrigeration solutions, and comprehensive after-sales support. With a strong presence in warehousing, distribution, and project management, we ensure high-quality, reliable, and sustainable cooling solutions that meet the evolving needs of our clients.

OUR SHOWROOM showcases a wide range of Carrier air conditioning and DKE refrigeration solutions, offering customers a firsthand experience of our latest HVAC technologies. Designed for residential, commercial, and industrial needs, our showroom provides expert guidance, product demonstrations, and personalized consultations to help you choose the best cooling solutions.

RESIDENTIAL & LIGHT COMMERCIAL PRODUCTS
Big innovations are not just for big buildings.

Carrier expertise extends into solutions for homes, small offices, apartments, retail and other small building applications.

Carrier offers a wide range of residential and light commercial solutions including ducted, ductless and packaged products and window room air conditioners that help balance comfort and efficiency.

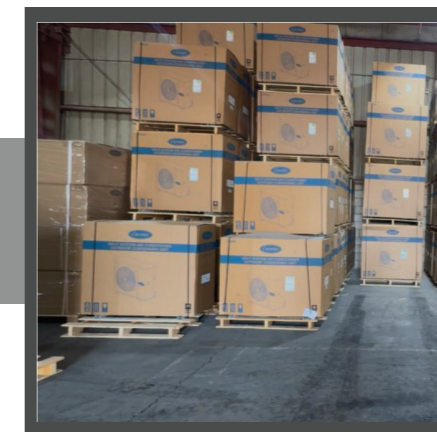

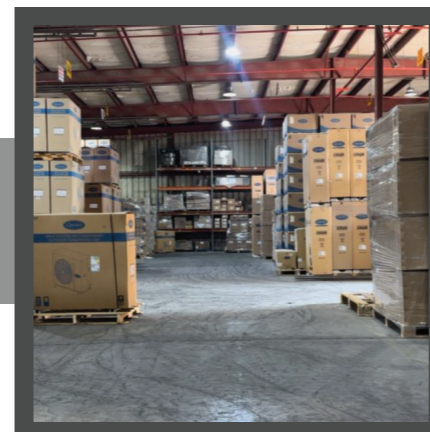

COMMERCIAL PRODUCTS
A World Of Comfort From A World Leader

The most innovative, efficient, and sustainable HVAC systems start with Carrier products. Choose from the latest in HVAC products and technology from the company that's been here since the beginning. In today's buildings, efficiency and reliability are critical. Carrier offers a wide range of commercial HVAC products that deliver both – all with the expertise of a world leader.

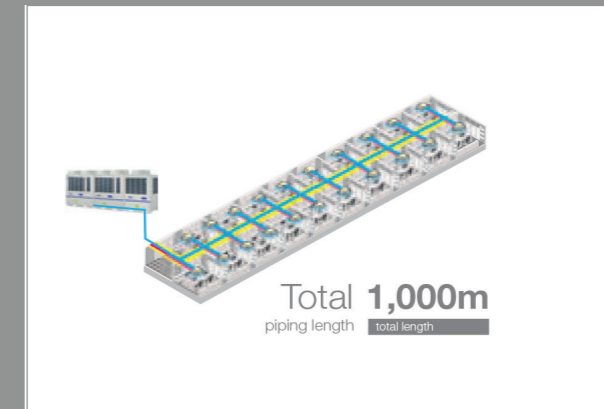

OUR WAREHOUSE

Our state-of-the-art warehouse is equipped with a large inventory of Carrier HVAC systems and Daikine refrigeration solutions, ensuring quick availability and efficient distribution. With advanced storage facilities and streamlined logistics, we provide timely delivery and seamless supply chain management to meet the demands of residential, commercial, and industrial projects across Saudi Arabia.

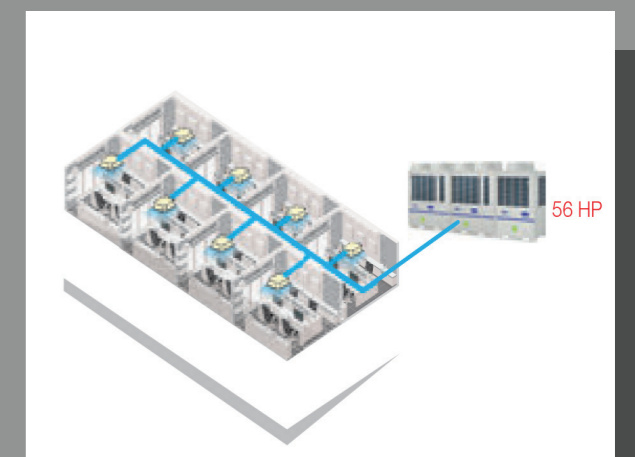

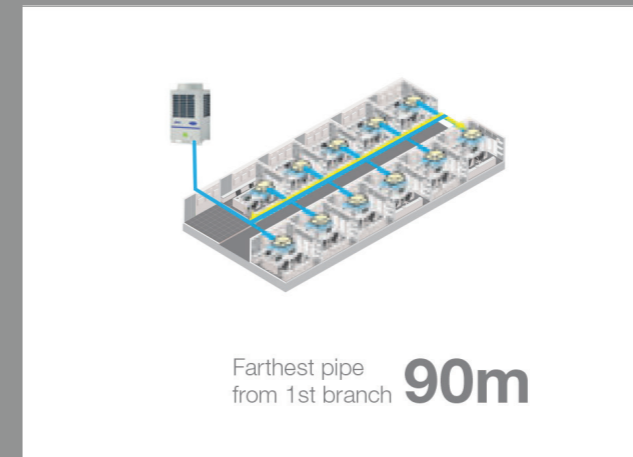

CARRIER XPOWER VRF

VRF systems are large-scale ductless HVAC systems performing at high capacity. This technology has the unmatched ability for multiple indoor units to operate on the same outdoor unit

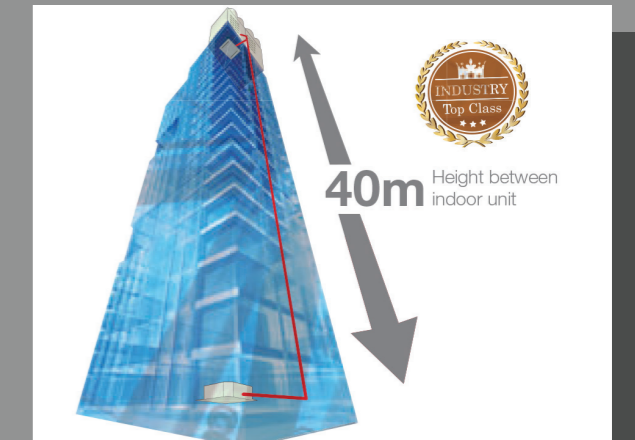

CARRIER CHILLERS

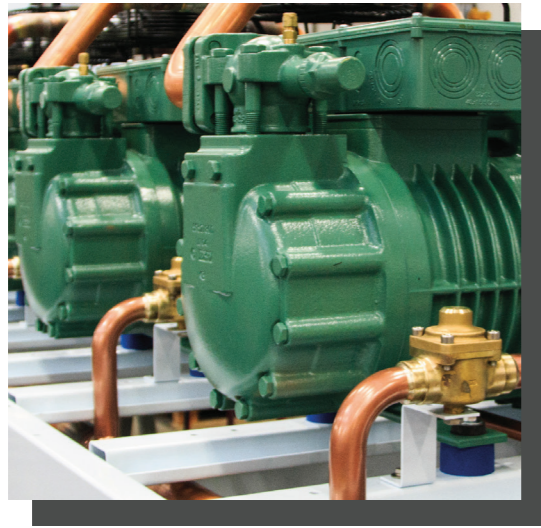

With a wide range of types, capacities and sustainable refrigerant options, Carrier is a leader in chiller options. With non-ozone depleting refrigerant, simple installation, superior efficiency and powerful controls,

COLD ROOMS

We provide six common installation requirements for cold storage, including Panel installation, unit cooler, refrigeration units, refrigeration pipelines,

DAIKIN REFRIGERATION is a global leader in high-performance cooling and refrigeration solutions, known for its energy efficiency, reliability, and advanced technology. Designed for commercial and industrial applications, Daikin offers a wide range of refrigeration units, condensing systems, and cold storage solutions that ensure optimal temperature control and sustainability. With a strong focus on eco-friendly refrigerants and innovative designs, Daikin continues to set industry standards for efficient and reliable refrigeration systems worldwide.

One-Stop Engineering

- Design & engineering support
- Dedicated local sales
- Controls solutions for central monitoring & BMS connectivity
- Retrofitting/ refurbishing with DMC range

Training and Development

- Equipped facilities for dedicated training
- Hands on training

Service Support

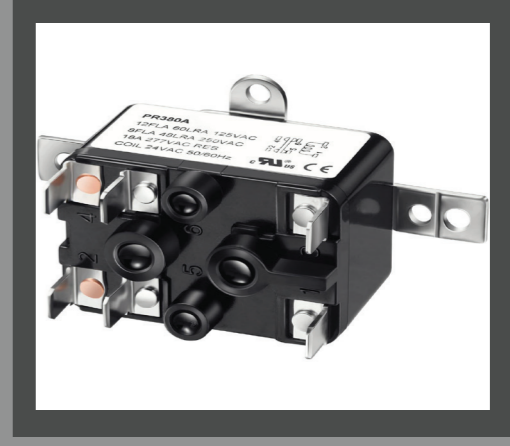

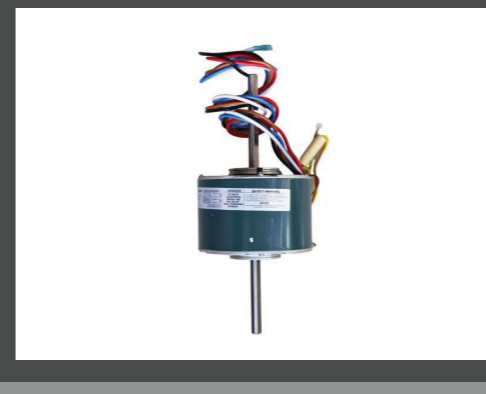

- On-field technical support
- Start-up & commissioning support

Spare Parts

- Spare parts inventory
- Well defined warranty policies

HVAC (HEATING, VENTILATION, AND AIR CONDITIONING) SYSTEMS are designed to provide efficient temperature control, air quality, and comfort for residential, commercial, and industrial spaces. These systems include chillers, VRF systems, package units, ducted and ductless air conditioners, and ventilation solutions. With a focus on energy efficiency and sustainability, modern HVAC systems ensure optimal performance, air purification, and reduced energy consumption, making them essential for maintaining a comfortable and healthy indoor environment.
